The authors regret that there was a typo in Equation (14b).

$$\tilde{\beta} = \frac{1}{3\sqrt{\pi}} C_D b_v N_v H_{rms,o} k \frac{\sinh^3(kad) + 3\sinh(kad) + \cosh^3(kad) - 3\cosh(kad) + 2}{\{\sinh^2(2kd) + 2kd\} \sinh(kd)} \quad (14b)$$

where $\sinh^2(2kd)$ needs to be $\sinh(2kd)$, and tilde above β should be

removed, just to be consistent with Eq. (14a). The correct equation should be as below:

$$\beta = \frac{1}{3\sqrt{\pi}} C_D b_v N_v H_{rms,o} k \frac{\sinh^3(kad) + 3\sinh(kad) + \cosh^3(kad) - 3\cosh(kad) + 2}{\{\sinh(2kd) + 2kd\} \sinh(kd)} \quad (14b)$$

The authors would like to apologise for any inconvenience caused.
